EXPERIENCE

AI Developer Intern

Mative

📅 Nov 2025 – Ongoing 📍 Avellino, Italy

- Work on Synopsis ML, an internal platform for building AI chatbots through a configurable interface.
- Support the management of different data source types, including uploading, organizing, and preparing user-provided files for chatbot usage.
- Help test and validate chatbot behavior to ensure correct responses based on the provided data.

LinkedIn Operator

INbuilder

📅 Jul 2023 – Ongoing 📍 Remote

- Manage LinkedIn profiles for B2B clients by performing targeted outreach activities including lead identification, connection management, and ongoing engagement to support strategic business development and relationship building.

Bookstore Clerk

Libreria Ubik

📅 Oct 2019 – Aug 2023 📍 Avellino, Italy

- Provided customer service, offered personalized book recommendations, and managed orders, shipments, and reservations to support daily bookstore operations.

PROJECTS

Cross-Genre Gender Prediction (EVALITA 2018)

University Project

- Developed multiple classifiers for author gender prediction across different text genres (e.g., news articles, social media).
- Implemented SVM models using various text representations: non-lexical linguistic features (Profiling-UD), character/word/POS n-grams, and word embeddings.
- Explored a neural language model approach with fine-tuning to enhance classification performance.

Comprehensive Analysis on IMDb Dataset

University Project

- Performed end-to-end data analysis, including data understanding, preprocessing, clustering, classification, regression, and pattern mining.
- Applied clustering algorithms (DBSCAN, K-Means, Hierarchical), classifiers (KNN, Naive Bayes, Decision Tree), and regression models.
- Conducted association rule mining using FP-Growth and Apriori to discover frequent patterns.

Virtual Escape Room Experience

University Project

- Designed and developed a 3D virtual escape room environment using Unity and Blender.
- Built interactive puzzle-based gameplay with immersive spatial design and object interaction.
